

# Circuit Skills: LED Matrix

Written By: Marc de Vinck

## PARTS:

- [LED Matrix Kit \(1\)](#)

## SUMMARY

Many an experimenter, hacker, tinkerer, & maker have heeded the call of the mighty matrix – and it's no mystery why. A small army of LEDs elegantly wired in grid formation would be difficult for anyone with an appreciation for electronics hardware to pass up – even after considering the sometimes daunting wiring job that stands as prerequisite to entry.
